Dear Families,

Pink Eye is spreading rapidly among students this spring. We have multiple cases in both elementary buildings, and we are seeing students get reinfected after an initial diagnosis and round of treatment. We have increased our handwashing and sanitation at school, but wanted all families to be aware. The best prevention is regular handwashing and avoiding touching face/eyes. The attached infographic gives more information as well.

Please check the school calendar for upcoming May events.

[Central Decatur Activity Calendar](#)
